Year 5 Autumn 1 Homework Grid

Tasks I must do each week:

Reading

At least 3 times a week read your reading book, or any other book, magazine etc.

Challenge- Choose a new author that you have never read and read a book that they have written.

Spelling

The spelling pattern/ words will be set each week on seesaw. Other tips to help you learn- write the words in different colours, write the words in a list, write them as a spelling pyramid, break the words into syllables, write each word in a sentence or choose a different way of your own to learn to spell them.

Times tables

Practise your 6, 7 and 8 times tables. You can chant them, write them down or get a family member to quiz you!

Challenge- Remember you can also practise using Times Table Rockstars.

Tasks I can choose from (aim for at least two completed before 21st October):

Geography

Find out about animals that inhabit a mountainous area of the world. How do they adapt and survive? Are any of these animals endangered? Why? Present your findings about your chosen animal in whatever way you would like.

Physical activity

Take part in a step challenge- how far can you walk in a week? Can you manage to walk the height of a mountain?

Virtual mountains	Number of steps	Number of flights
Mount Snowdon, Wales	7,120	475
Ben Nevis, Scotland	8,810	587
Mount Blanc, France	30,420	2,028
Mount Kilimanjaro, Tanzania	38,680	2,578
Mount Everest, Nepal	58,070	3,871

Art

Create some mountain inspired art. You could make a black and white or coloured picture; use pencils, paint, chalk or make a collage. Do some research for ideas - there is some wonderful different mountain art out there!

PSHE- Keeping Healthy

Look the amount of sugar on some food packages (for example cereal bars or boxes of cereal). Which have the most or least sugar? How much sugar in 100g?

Create a breakfast or pudding that is balanced and tasty but contains less added sugar.

Science

Research about a planet or a famous astronaut.

Can you produce a fact file showing what you have found out? Make sure you show at least 10 facts.

Outdoor

Link our space and mountain topics to being out and about with your family. Some ideas are visit the National Space Centre in Leicester, go constellation spotting at night or visit an actual hill/ mountain- there are a few in Derbyshire, e.g. Mam Tor, Higger Tor and Kinder Scout. Please remember to take some photos!

You can share the homework anytime on Seesaw or bring work into school to show
